

CHANGE THE MAP (CTM) TRIP

The CTM vision trip for pastors from Minnesota was cancelled this year because of COVID. Their trip would have included temple tours in Bangkok and Chiangrai, showing them the darkness and the need for prayer. We were able to join our Area Director and several other missionaries for a powerful time of visiting temples in Chiangrai. In one temple we were able to pray over the head monk, a very influential person in the community. He gave credit to Jesus for healing his body recently. God is working here, and we love seeing glimpses of it! Our hope is that pastors will be able to come soon and catch the vision for CTM and a burden for Thailand.

HMONG VILLAGE CHURCH

There are a number of tribal groups in Northern Thailand. One of the larger groups is the Hmong tribe. Recently we attended a church service set in a beautiful, mountainous location in Nan province. This church is becoming a member of the Thailand Assemblies of God. A number of missionaries, Hmong pastors and Thai pastors from other churches around Thailand were able to welcome them into the AG family. One of the highlights of the day was to witness four church members being baptized and then being able to pray over them. God is moving throughout Thailand!

SHORT-TERM TEAM UPDATE

We were scheduled to have three short-term teams come this fall. They will not be able to come this year due to the COVID situation. We are hoping and praying that things get better in the U.S. and we can reschedule them for early next year. We realize how much we love having teams and seeing them return home changed people with a burden for Thailand.

Prayer Requests

- Praise God for what he is doing in Thailand!
- Pray for the Hmong people that they will share the gospel to those around them.
- Pray that Thailand will start to allow foreigners back into the country allowing missionaries to return and short-term teams to come.
